Email: phelokazimadala@yahoo.com

Professional Summary

Detail-oriented and adaptable IT graduate with a Diploma in Information Technology and hands-on experience in software development, AI systems, and full-stack web applications. Skilled in designing, developing, and maintaining reliable, scalable, and user-focused solutions across frontend and backend environments.

Experienced in applying problem-solving and algorithmic thinking to deliver functional systems, performing debugging and troubleshooting, and collaborating within teams to meet project objectives. Passionate about building secure, maintainable applications and continuously improving technical skills in a fast-paced development environment.

Education

Nelson Mandela University

Diploma in Information Technology: 2020 – 2024

Byletts Combined High School

National Senior Certificate (Grade 12): 2019

Skills & Abilities

- Software & Tools: Microsoft Office Suite (Word, Excel, Access, PowerPoint, Outlook), Git and GitHub, Visual Studio, Jupyter Notebook
- Web and Frontend Development: HTML, CSS, React
- Programming Languages: Python, Java, C#, JavaScript
- Database: SQL, Supabase (Authentication, and backend-as-a-service fundamentals)
- Data Analysis & Visualization: Pandas, NumPy, Seaborn, Matplotlib
- Emerging Technologies: Generative AI, Prompt Engineering, AI Automation and No-code tools
- Effective written and verbal communication
- Problem-solving and analytical thinking
- Reliable and responsible
- Willingness to learn and adapt to new systems and technologies
- Strong Teamwork and collaboration

Experience

AI Associate – CAPACITI

March 2025 – 31 March 2026

- Participating in intensive AI and software development training.
- Building AI-powered solutions including chatbot systems and automation tools.
- Working on collaborative technical projects focused on real-world problem solving.
- Gaining exposure to AI concepts, prompt engineering, and intelligent systems development.
- Achievement: 2nd Place - Group Chatbot Project (CAPACITI Programme)
Awarded second place for a team-developed chatbot solution presented during the programme.

Frontend Developer / AI Associate – Hapo Technology (Work Placement)

July 2025 – 31 March 2026

- Contributing to the development of web applications using React, JavaScript, and Supabase.
- Assisting in building and testing frontend interfaces.
- Supporting backend integration and authentication systems.
- Working on AI-driven and data-focused features within company projects.
- Taking lead on selected projects while collaborating within a development team, using Git and GitHub for version control and efficient code management.
